

## High Time

This here's a shoe shine all bright and buffed  
That there's a tan line all round yer stuff  
I'm feeling so fine can't get enough  
and it's high time baby

This here's a big crowd the party's on  
The music's up loud and I love this song  
You're looking so proud all mean & long  
and it's high time baby

Hey, I'm dippin'  
What you say?  
I just can't take no more  
Let's get on back to our cozy space  
Let's get it all over the floor

This here's a cool night but it's warm in here  
That there's the moonlight it's your turn to steer  
Everything's alright when you pull me near  
Yeah, and it's high time baby
