

Heave-ho

Someone keeps banging on the door
Never let 'em in but they're always coming back for more
Someone keeps calling on the phone
Hang up every time but they're never leaving me alone

Every time (that) I feel this way
No matter what they say

Someone cracked the nest egg on the floor
Out comes a glutton with a ledger eating up the hoard
Someone wants to shoot me full of meds
Keep me in the basement ask permission just to raise my head

Every time (that) I feel this way
No matter what they say

I heave-ho
I heave high
I don't know
I know why

Someone flushed the bottles down the drain
Floating down the river they're about to drive the fish insane
No one got the brake to stop the train
Running out of track all the levers gonna be in vain

Every time (that) I feel this way
No matter what they say

I heave-ho
I heave high
I don't know
I know why
