

Mulberry Wine

We got a copious spread
You got the mulberry wine
We can get together
Have a rootin' tootin' good time

She took the riverboat queen
I took the low ball again
We got one chance sugar
Let's give it all that we can

High flyers and clowns all around
No place to check you're passé
She got monkeys in her back yard
Don't know if they'll ever go away

It's just the two of us now
We're like two phrases in rhyme
The world's gone crazy
Let's drink this mulberry wine

It's just the two of us now
We're like two phrases in rhyme
The world's gone crazy
Let's drink this mulberry wine
