

My Love

My love my love
Felt once like this before
It was over twenty years ago
When you opened up my door

My love my love
Sometimes the sun don't shine
You could say the grapes gone sour
But it's tasting just like wine

Together but alone
The slightest change of tone
Enough to make the devil mad
Now's calling on the phone

Took ages to confess
Took years with no caress
Enough for both to call it quits
We're a miracle I guess

Your sweet summer song
Dancing on my tongue
We can stay like this forever
This could never get too long

My love my love
Sometimes the sun don't shine
You could say the grapes gone sour (girl)
But it's tasting just like wine

So many times we stayed
Chose not to walk away
Funny how it makes you free
When you got no games to play

No need make pretend
Don't mean to condescend
But I'd marry you a thousand times
And do it all over again

Your sweet summer song
Keeps dancing on my tongue
We can stay like this forever
This could never get too long

My love my love

Sometimes the sun don't shine
You could say the grapes gone sour (girl)
But it's tasting just like wine

My love
My love
My love
My love
