

Take a Little Sip

Gettin' by can make a mind grow weary
An hour's worth of gold ain't worth a dime
Tryin' not to worry 'bout the family
Tryin' hard to keep some (kind of) fire alive
Strange things gettin' stranger
Quick fixes gettin' old
It's what I'm told

The elephant in here is going crazy
Got the whole damn jungle in a rage
The donkey's peddlin' fiction at the farmhouse
Trick you every time you turn a page
Strange things gettin' stranger
Quick fixes gettin' old
It's what I'm told

Take a little sip from the loving cup
Take a little sip
Take another drink from the cool clear water
Take another drink
Take a little dip by the banks of the river
Take a little dip
The cure is in the sound
Love is all around

The hardest pain can lead to joy
Like when you were a little boy
No worries 'bout tomorrow yesterday
Dare to learn to let them go
Keep your spirit in the flow
Frets will melt away
Love will take their place

Take a little sip from the loving cup
Take a little sip
Take another drink from the cool clear water
Take another drink
Take a little dip by the banks of the river
Take a little dip
The cure is in the sound
Love is all around
